Rev. Chapman Goes to New Field

Rev. S. F. Chapman, of Dewitt this county, has been transferred to the Gradyville District of the M. E. Church, Sparksville, Ky., by the Bishop at the Annual Conference recently held in Covington. Rev. Chapman has been in the ministry but a short while and his first work was in the Fighting Creek Church where he endeared himself to that influential community. Then he was given the Dewitt Church and now he takes another advance and goes to the Adair County congregation.

His ability as a logical and forcible speaker, great mixer among all classes of people soon gains for him a lasting place in the hearts of any with whom he is thrown with, be it Church or business association. His rising and lasting good in church work here in Knox County has been watched with keen and appreciating interest by his legion of friends, and while this section is the looser, the entrance upon his new work will prove a mark gain for those whom he will serve as pastor for the next conference year.

Mr. Chapman moved here several years ago and worked up and down the Cumberland Valley as a District Superintendent of Agents for a Health and Incident Insurance Company and made a great success of it. He could write more insurance and make more satisfactory settlements with the insured than any man of whom we have knowledge. As a minister of the gospel, Rev. Chapman makes a great financial sacrifice for this labor of love-to work where he believes he was called—but his reward will surely come in another day.

Bro. Chapman was a short time ago made a Master Mason of Mt. Lodge No. 187 F. & A. M., and gave the fraternity a nice talk for the many courtesies extended him by the brethren, and people while living in their midst. May success crown his efforts and may peace be ever with him. Mr. Chapman leaves today with attractive and pleasing family for his new home where, too, the Old Time Religion is ever present among the people whom he will serve.

Obituary

Another good man gone to rest Brother Levi Foley died at his home on Indian Creek on Thursday night Oct. 7th, 1915 from a short attack of pneumonia fever, which met his troubled system from the drugs of a severe attack of LaGrippe which seized him and wife early last spring. On April 1 the Old Death Ship of Zion passed around and finding his beloved wife, Katharine Foley, nearing her three score and ten years with a life well spent in sowing seeds of kindness to all her neighbors and friends. The Death Bell called and she answered, Ready! and bid adieu to her only son and daughter living and her orphan grand children to meet her sons and daughters over there who have been long waiting to welcome her there to live in Paradise forever where all tears of grief and sorrow are wiped away.

A few more days and weeks of pain and distress had gone by when her beloved husband, Levi Foley heard the Heaven Bells ringing and he answered, ready! and departed this life for his reward in Paradise, which the undersigned has often heard him say so many times in life he wanted to reach and his walks in life has proved such a destination as "the tree is known by its fruits."

The orphan grand children as well as son and daughter sit not in grief and sorrow when but a few more days shall roll by the Lord will call you to that Eternal home to meet your father and mother, grandfather and grandmother to live together in Paradise in peace with God forever.

Funeral services were conducted by Rev. C. H. Peck at burial on Saturday, Oct. 9th, in the presence of a good crowd of relatives around Indian Creek from which Church he belonged most all his life.

Francis M. Rees.

Christian.

The usual services will be held at the Christian Church next Sunday. The subject of forenoon sermon will be "Christian Living," and a "New Testament Conversion," will be the subject of the evening sermon. All are invited.

Killing on Stinking Creek

On last Sunday evening James and Henry Mills, brothers, were mortally wounded by Frank and Jesse Baker, brothers. James Mills died in a few minutes from the wounds received and we are told that no hope is entertained for the recovery of Henry.

It seems that all this came up over Henry Mills taking some man's wife to a singing school, the husband taking a double barreled shot gun along went in pursuit of the said wife, and when he came to the singing school he found them together and the row started, and James, the brother of Henry Mills, took part in the fray only to give up his own life.

This particular family of the Mills' are extremely unlucky, the father of the two boys, and his cousin, were killed at the same time in the same fight; later one of the brothers of these two men and a cousin were killed in the same fight, and now these two brothers were killed in the same fight; looks as though they are destined to die in pairs.

The Baker boys have not yet been arrested but we are told that they are at their home on Stinking Creek and are making no resistance to arrest.

The Mills boys lived in this city, they came here sometime ago and bought property. Henry and his wife are separated and have not lived happily together for some time.

SOME GAME

T. H. McDaniel who has just returned from a trip to Texas, brings some good specimens of the game they have in that State. He brought with him the skins of two deer, as well as the head and horns of said deer; the heads of two or three jack rabbits and some other trophies.

Tom says that is a good country to hunt in and kill game, but it is not worth a darn to raise anything on except onions and lettuce, now who in the dickens can live on lettuce and onions? Tom says that it is a fine place at Fowlerton to save money as there is positively nothing that a man would spend it for in that country, even if he had it to spend.

We have always claimed that the Mountains of Kentucky are good enough for Kings, Princes or Potentates to live in, and as a rule all who go to other Countries either come back or wish for the good pure mountain air that we enjoy.

Dare Devil Logan

Dr. Leslie Logan, whom we have heard some call "Dare Devil Logan," because of his ventures with his automobile, made a trip from Barbourville to the residence of Sam Riley, on Hammons Fork of Goose Creek, in less than an hour one day last week. It would seem unreasonable to try it even with a horse and buggy.

After Twenty-two Years

Mr. and Mrs. Irvin Gilliam are the happy parents of a bouncing boy who came to their home last week. This is their first one, they have been married more than twenty-two years and the proud father came into town this morning all smiles and announced that he was at last called "Dad."

We hasten to congratulate the fond parents and hope that the young Gilliam will some day be President of the United States.

Must Pay For The Paper

Judge George Thomas, of Columbus, Neb. recently decided that if a man accepts a paper that is sent him he must pay for it. The decision was rendered in the case brought by the Columbus (Neb.) Telegram against a man for \$2.35. The Telegram had been sent to the man's home and he had accepted the paper. When called upon to pay for it he refused and suit was brought. When Judge Thomas heard the evidence he instructed the jury to bring in a verdict for the Telegram. Judge Thomas ruled that the old common law principle that what a man received and used he was bound to pay for applied in this instance.

GONE TO IOWA

Last Sunday night Hon. S. L. Lewis, Sheriff of this county, left for Marshalltown, Iowa, to bring back to this county one Nade Long, who is wanted by the Circuit Court for forgery. It seems that Long has, or is accused of, forging the name of W. W. Fisher and A. J. Elliott to a pay roll, whereby he deprived these two gentlemen of quite a little sum of money.

MRS. M. JOSEPH SAYS 'EXCELLENT'

Louisville Woman As-
serts Tanlac Benefit-
ed Her Wonderfully

Louisville, Ky., Oct. 14. — Mrs. Minnie Joseph, wife of Louis Joseph, the well-known employe of Fontaine Ferry Park, is among the hundreds of Louisville people who recently have indorsed Tanlac. Mrs. Joseph said:

"I have suffered from nervous debility several years. My system was all run down. I had nervous headaches and was generally depressed in spirits.

"I used a number of preparations in the hope of bettering my condition, but nothing seemed to accomplish the right results until I began taking Tanlac. Tanlac has proved a most excellent tonic in my case. It relieved me wonderfully. I am so much better and I willingly recommend this medicine."

Tanlac, the premier preparation, can now be had in Barbourville, at The Herndon Drug Co's Drug Store. adv.

COMMISSIONER'S SALE

By order of the Knox Circuit Court, rendered at its Sept. term 1915 in the case of C. B. Parrott vs

Ada Lewis and James Lewis Deft.

I will, as Commissioner, on the 1st day of November, 1915, same being first day of the November term of the Knox Circuit Court, sell at the Court House door in Barbourville, Ky., to the highest and best bidder, the following described property, or enough thereof to satisfy the judgement in said case, amounting to 30.00 with interest at 6 per cent from March 3rd 1914, and \$40.00 probable costs.

A tract of land in Knox County Ky., bounded as follows:

Beginning at a beech tree close to the road standing on the bank of a branch close to the fall in the branch, which is about a two foot fall; thence a straight line and with the fence of J. P. Parrott's to a beech standing at the foot of the hill; thence a south course with a marked line to the back of Wm Cain's Survey; thence with the said Cain's Survey to the beginning.

Said property will be sold on a credit of six months, the purchaser to execute bonds with approved security, bearing interest at six per cent, from date until paid, having the force and effect of a judgement and retaining a lien on said property until the purchase money is paid. Witness my hand, this 14th day of October, 1915.

Sol T. Steele, Commissioner
Sale about 1 p. m. Purchaser must execute bonds as soon as sale is over, or the property will be immediately put up and resold.

T. W. Minton & Son have just closed a deal for a million feet of hickory timber to be delivered at once; this means that the Hickory Mill will run full time all winter and summer. These people are hustlers and we should boost their enterprise.

Fate of The Fiscal Court

The report of the members of the Fiscal Court being indicted is yet going the rounds, and the time is drawing nigh, when they will appear before their accusers and we will then know what the real manner of doing things has been. We have seen all of these gentlemen, and we are authorized to say that they are ready for trial, and have been ever since the returning of the indictments in these several cases. They met at the regular term and did nothing in the way of allowing claims, this is something that has never been known before. The Courts heretofore have allowed claim after claim when the county had exhausted every available cent and there was nothing said or done.

Take for example the records of the Fiscal Court in the years of 1910-11-12-13, if it was wrong to do the things then it is wrong to do it now, if it is wrong now, it was wrong then, so why make all this ado about a thing that is, or has been, so common, we can not see.

It is true that two wrongs do not make one right, or any part of it, but justice and moderation will bring all things around alright.

BIG OPPORTUNITY

1000 Acres of Land at a Sacrifice.

It is located in the South-east part of Liberty County, Florida, with the Appalachicola R. R. on the East side of it. It is also near the Ocklocknee River, a navigable stream which flows into the Gulf at Carabell. It is also about 20 miles from the gulf coast, with the Appalachicola Bay near by. These are both fine harbors are rapidly becoming great shipping points for deep sea vessels. Tallahassee, the capital of the State is in the adjoining county of Leon, about twenty-five miles away to the Northeast.

This land is well situated for general farming, stock raising and fruit growing, as well as all kinds of trucking.

The soil is Norfolk sandy loam, considered the best soil in Florida. It is fine for cotton, corn, oats, peas, beans, velvet beans, sugar cane, potatoes, both sweet and Irish, melons, all kinds, all kinds of trucking, cabbage, kale lettuce, being grown and shipped the entire winter through.

This is the very heart of Pecan section, this popular nut is being grown through this section as nowhere else in the South, and with great profit to those who has gone into the industry. It is not generally known that this nut is very limited in the care that it can be grown successfully, and profitably. This section is about the center of its latitude.

Also figs are grown here with great profit, and is becoming a great industry through this section.

Also the Satsuma orange is grown here and even a hundred miles further north, which can stand a temperature of 15 degrees above zero.

It barely ever reaches freezing at this point, the climate is ideal, the breeze from the Gulf tempering the atmosphere, so that it never is too hot in Summer or too cold in Winter. There are more sun shinedays in January than there are in July in Kentucky, according to the weather bureau report.

This is not wet or overflow lands, it is practically level, just rolling enough to give good drainage. It is well watered for all farming and stock raising purposes and convenient to good transportation in all directions.

The price of this land is \$10.00 per acre in 10 acre tracts, 20 acre tracts, 30 acre tracts, 50 acre tracts or 100 acre tracts, while it lasts. I will sell on the following terms in order to give every boy and girl, man or woman a chance to own a home and a farm worth while. The terms are so easy that you can own it without missing the amount you pay. Terms as follows:—

One dollar per acre down, and fifty cents per acre per month till paid. Listen, suppose you buy 10 acres, it will cost you \$100, you pay \$10 cash, and give eighteen notes of \$5 each due and payable from one month to eighteen months.

So study this proposition good before passing it up, and if you want a tract of valuable Sunny South land get it before it is too late. Deeds and contracts and a copy of this description will be furnished at The National Bank of John A. Black in the city of Barbourville or by calling on W. M. Jones, at Hotel Jones.

Respectfully,

W. M. JONES, Owner.

Cool in summer—warm in winter

The General Says:

Neither the hot winds of summer nor the cold blasts of winter can penetrate our roofing or wall board. Roofs covered with wood shingles, slate, or tile, need one or more layers of our insulating materials under them to keep the building cool in summer and warm in winter.

The use of wall board as an improvement over lath and plaster is becoming universal. Being a non-conductor of heat, it saves fuel in cold weather and keeps out the hot winds and heat of the summer. The great service and very low cost of our materials have led to their enormous use everywhere.

MAKING PROGRESS

THESE happy, healthy looking children were sent to this open air school in Louisville a little time ago because they were run down and anaemic. Warmly clothed and provided with special diet, they do their school tasks in a room with the windows wide open, so that the wind can blow over them. Without exception these children make rapid progress in school and improve in health almost beyond belief.

Shacks For Consumptives at Western Kentucky Asylum For the Insane

AT the state asylum for the insane at Hopkinsville it was found some years ago that many of the patients were afflicted with consumption. The authorities consequently built two groups of buildings to accommodate the consumptive cases.

A central building, to provide a dining room, bathrooms, etc., was surrounded by groups of shacks, each having beds for three patients. The lower fourth of each side of the shacks was boarded up, and the section above was formed of canvas stretched over frames. These canvas screens were made in sections fastened at the top with hinges, so that any side might be opened to admit the fresh air and sunlight.

Dr. H. P. Sights, superintendent of the hospital, states that the death rate at the asylum has been decreased 40 per cent by the use of these buildings for the consumptives, and that many of the consumptives have been returned to the main building restored and some have been sent home restored both physically and mentally.

The two groups of buildings, accommodating fifty-six patients, were built for less than \$8,000. Dr. Sights says further: "I think every county in the state should have a tuberculosis colony, and the county officials, who will take the time to look into the benefit offered their citizens, would not hesitate to take steps at once to establish such a colony, and do the greatest service possible for them to do with the amount invested. It will not be an experiment, as this state institution, with its limited funds, demonstrated fully the wisdom and economy of the project."

A SIMPLE SLEEPING PORCH

WHEN you build your new home plan to have a sleeping porch. If you do not like hot summer nights and stuffy winter nights indoors, build a sleeping porch like the one above on your present home. Place it in an angle so as to avoid drafts. The southeast or southwest side of the house is best.

The sides should be boarded up three or four feet to insure privacy and a reasonable freedom from drafts. The upper part should be covered with wire netting. Outside the netting hang canvas strips that can be raised or lowered from the inside.

A porch of this sort can be made for from \$50 to \$100, depending on the kind of finish and material used.

Starting the Day Right

THE first exercise of the day at the open air school for the treatment of anaemic children in Louisville is a cold shower bath. The bath lasts only a few seconds and is followed by a quick, hard rub with a coarse towel, so that the blood is brought again to the surface. The cold bath hardens any one so that an exposure to cold air and drafts is no longer dangerous. In addition the quick, cold bath sends each child to the school-room happy and alert for the duties of the day.

At the Dispensary

IN a number of cities in the state there are dispensaries where those who do not feel well may go for an accurate medical inspection. These dispensaries are maintained particularly to afford facilities for the examination of consumptives or those who suspect themselves of having tuberculosis. The visiting nurses in their rounds of the city direct rundown people to the dispensary for examination by the physicians.

The first step in the examination is to take the height and weight of the patient and to learn many other simple facts about the case. This work is done by the nurse, and the physician then makes a careful examination of the case. Where tuberculosis is found the patient is induced to return at regular intervals to the dispensary, and the nurses visit the patients as often as possible in their homes.

A dispensary at every county seat in Kentucky affording facilities for the careful examination of suspected consumptives under the supervision of experienced physicians and nurses would result in the discovery of thousands of cases at the early stage, when, with proper treatment, they could be restored to a reasonable degree of health. Consumptives ordinarily do not go to the physician till they are too far advanced for successful treatment. Consequently there should be visiting nurses in every county to search out the sick in their homes and bring them in touch with the physicians, either in dispensaries or at the doctor's office. About 5,000 Kentuckians die annually of tuberculosis. Not a single one of these deaths is necessary. But this death rate will keep up until there are proper provisions for finding consumptives in the early stage of the disease, and the dispensary, the visiting nurse and the health officer, who go out and look for the sick, comprise the most successful organization for the discovery and prevention of tuberculosis.

Why Not Sleep In the Open Air?

ALMOST every one who wishes it may have a sleeping porch. One may be built over the veranda of the home. If this situation is not suitable, two heavy poles and some cleats against the side of a house will support the platform for the bed. If it is not convenient to make over the bedroom window into a door, the bed may be put right close to the window, and you can crawl through the window into the bed.

Fresh air is the most important thing in the treatment of tuberculosis. Consumptives all over the country are building sleeping porches so that they may sleep out of doors.

If fresh air is good for sick people it must also be good for healthy people. Those who have tried sleeping in the open on sleeping porches say they have never rested so well. Those who get up every morning in winter with headaches and feel generally out of sorts will always find that open windows in sleeping rooms will prevent that sort of feeling. Sleeping right out of doors on a porch is even better.

When you build your home plan for an open air sleeping porch just as you would for a kitchen. If you want one now, don't hold back thinking it will cost a large sum of money. This one was built for \$20.

Build your porch where it will be protected from strong winds. It is also a good plan to provide it with curtains to keep out the rain and sun.

Help For Consumptives.

The State Tuberculosis Commission, Frankfort, Ky., will send to any physician, health officer or consumptive family, on request, a free copy of its new booklet on the home care of tuberculosis. This authoritative pamphlet is designed to aid and not supplant the physician. Its chapter on diet will prove especially helpful.

Children at an Open Air School

LOUISVILLE has a school for those anaemic, rundown children who are ordinarily subject to every form of disease. Such children are greatly retarded in school, not only through their poor physical condition, but also through frequent loss of time on account of sickness. Among those children also the germs of tuberculosis may later find good soil.

This picture shows the warm suits and caps provided for the children, who are kept all day long in the open air. Windows on both sides of the school-room are kept continually open.

At noon the children are given a substantial meal at the school and then rest on cots for about an hour.

Experience in Louisville and throughout the country shows that this combination of fresh air, nourishing food and rest under the supervision of a physician and a visiting nurse will produce remarkable results. The children uniformly show increased weight, better color, better spirits and greater activity. The school work is made subordinate to the care of the children's health, yet with fewer hours of instruction each day they make progress equal to that of normal children in the typical schoolroom. If fresh air is good for sick children it must also be good for healthy children. The day is coming, according to Dr. Landis of Cincinnati, when every schoolroom will be an open air room.

You visit the pen you keep your pigs in, but do you visit the school to which you send your children? Do you really know whether it is clean and well ventilated? Does it have good water and clean closets? If your school is not clean and well ventilated, protest to the teachers and trustees till the faults are remedied.

COMMISSIONER'S SALE

By order of the Knox Circuit Court, rendered at its September term 1915, in the case of J. M. Robison

Pltff. vs. L. D. Stanfill, J. F. Stanfill, J. E. Golden and N. A. Golden Deft. I will, as Commissioner, on the 1st day of November, 1915, same being first day of the November term of the Knox Circuit Court, sell at the Court House door in Barbourville, Ky., to the highest and best bidder, the following described property, or enough thereof to satisfy the judgement in said case, amounting to \$75.00 with interest from the 30th day of December 1913, and \$— costs.

A tract of land on Middle Fork of Stinking Creek, and being the same land conveyed by J. E. Golden and N. A. Golden to their co-defendants L. D. Stanfill and J. F. A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excitable; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. No alcohol. Scott & Bowne, Bloomfield, N. J.

Every Woman Should Know

There are three entirely different kinds of baking powder, namely:

- (1) Cream of tartar, derived from grapes;
- (2) Alum, a mineral acid; and
- (3) Phosphate of Lime.

(1) Baking Powders made of Cream of Tartar add to the food the same healthful qualities that exist in the ripe grapes from which Cream of Tartar is derived.

(2) Baking Powders made of Alum add to the food some form of Alum or Aluminum, a heavy metal, wholly foreign to any natural article of food.

(3) Phosphate of Lime is made from rock or by burning bones which by chemical action are changed into a white, powdered acid. It is used in baking powder only because it is a cheaper substitute.

A Cream of Tartar powder never contains Alum or Phosphate.

Every housekeeper should read the names of the ingredients printed on the label and know what she is using.

HAMLET'S RECORD IN OFFICE

A SATURNALIA OF GRAFT, EXTRAVAGANCE AND WANTON WASTE

This Is The Record Which Hamlett Says Will Make
Him Governor in 1919; What Will
The People Say in November?

School Per Capita

During Governor Willson's term the appointment for schools increased from \$3.40 to \$4.40 per capita and left a surplus at the close of the school year June 30, 1912, of \$136,700.25. The next two years the Democrats apportioned only \$4.00 to each pupil and left the enormous balance of \$638,027.36 at the close of the school year June 30, 1914. They could then have increased the per capita to \$5.25 and the school term to seven months, but instead they left the term six months and made the per capita \$4.50, leaving a surplus of \$613,768.73 at the close of the school year June 30, 1915. This was clearly done for the purpose of leaving the big surplus on deposit in favored banks and of using the increased per capita and greater term for the purpose of influencing the primary and final election. The increased per capita will consume all this surplus and compel a return next year to a six-months term.

Table Showing Per Capita and Surplus

	Surplus.
For the school year ending June 30, 1912, \$4.40 per capita.....	\$136,700.25
For the school year ending June 30, 1913, \$4.00 per capita.....	187,989.02
For the school year ending June 30, 1914, \$4.00 per capita.....	638,027.31
For the school year ending June 30, 1915, \$4.50 per capita.....	613,768.73

It will be noted that there was a surplus of \$638,000 in the School Fund at the close of the school year ending June 30, 1914. This had been accumulated because for the two previous years the per capita had been reduced to \$4.00. For the year ending June 30, 1915, the per capita was fixed at \$4.50. To pay this amount it required not only the entire amount of revenues received into the School Fund, but also \$26,000 of the surplus which had accumulated in prior years. This shows that the revenues coming into the School Fund yearly are not quite sufficient to pay regularly a per capita of \$4.50.

For the present school year the per capita is fixed at \$5.25, an increase over the previous year of 75 cents for each pupil child. Under the law, when the per capita reaches this amount there must be a seven months school.

As it requires \$25,000 more than the current revenues to pay a per capita of \$4.50, it is clear that the additional 75 cents added for the present year will not only consume all the current revenues, but also all of the surplus now on hand. There are, in round numbers, 728,000 children of school age in the State. This increase of 75 cents each will therefore, require \$546,000 additional money which, deducted from the surplus on hand at the beginning of the term, and assuming that the revenues would be substantially the same as in previous years (there is no known reason why they should be materially greater) will leave a balance at the end of the present school year of only \$67,000.

Thus, it will be seen that the per capita for the year following cannot exceed \$4.50 and the school term must go back to a six months' term as

usual.

The robbing of teachers of money justly due them in former years for the purpose of creating a surplus to enable the Superintendent of Public Instruction to make a spasmodic increase in the per capita and the school term for the purpose of nominating and electing himself to another office is an outrage upon the teachers of former years whose salaries are, at best, wholly inadequate for the services rendered.

Double Salaries and Wanton Extravagance in the Educational Department

In 1912 the Legislature passed an act giving the Superintendent of Public Instruction \$2,000 a year additional clerk hire, increasing his salary \$1,500 a year and giving him two inspectors in the field at \$1,000 a year each.

He gave his wife the clerkship at \$2,000 a year and gave one of the inspectorships to V. O. Gilbert. Gilbert was being paid \$1,500 a year for work in the office; he continued to hold that office and draw the pay while he accepted the additional office and drew \$1,000 a year for neglecting his duties in the office and ran about over the State.

In addition to the salaries the Superintendent and each Inspector were to be paid their actual expenses while on these junkets. The vouchers for these expenses were to be itemized and receipts taken for all sums exceeding one dollar.

In addition to drawing two salaries amounting to \$2,500 a year, Mr. Gilbert was paid \$581.65 for expenses during the fiscal year ending June 30, 1913; \$824.12 during the year ending June 30, 1914, and \$1,957.04 for the year ending June 30, 1915. You will note the progressive increase for each year.

During the same years there were paid to Mr. Hamlett on expense account the following sums: 1913, \$3,313.48; 1914, \$3,236.49; 1915, \$2,832.97. For the month of December, 1912, his expenses were \$596.76, or more than 19.00 a day, including Sundays.

Printing for the School Superintendent

There was paid to the public printer from the School Fund the following amounts:

For the school year ending June 30, 1913.....	\$ 6,109.16
For the school year ending June 30, 1914.....	22,021.28
For the school year ending June 30, 1915.....	29,157.95

Total for three years under McCreary.....\$57,288.42

There was paid to the public printer from the School Fund the following amounts under Willson:

For the school year ending June 30, 1909.....	\$ 4,862.44
For the school year ending June 30, 1910.....	13,178.90
For the school year ending June 30, 1911.....	4,713.16

Total for three years under Willson.....\$22,754.50

Itemizing Accounts

The Act of 1912 authorizing the inspection service by the Superintendent and his assistants requires that itemized accounts be filed for these expenses, and yet few, if any, such itemized accounts appear in Mr. Hamlett's expense bills prior to the passage of the General Law in 1914 requiring all officials to file such accounts and receipts and but few have been filed since.

Most of the payments were made under the stock phrase "Inspection Expense—Railroad fare, hotel bills and incidentals."

Particular Bills

Mr. Hamlett drew from the Treasury on account of expenses the following sums:

For the school year ending June 30, 1913.....	\$3,313.48
For the school year ending June 30, 1914.....	3,236.49
For the school year ending June 30, 1915.....	2,832.97

Total in three years.....\$9,382.94

In the month of December, 1912, he drew on account of alleged expenses the enormous sum of \$596.76. A sum equal to \$19.25 for each day, including Sundays.

As an example of his expenses we submit one trip of two days. Voucher No. 3, issued and paid in July, 1915, shows these items as follows:

1915. May 14. Meals en route, Louisville to Paducah.....	\$ 2.85
1915. May 15. Livery, Paducah.....	9.00
1915. May 15. Stenographer.....	1.50
1915. May 15. Pullman House.....	13.80
1915. May 15. Pullman, Paducah to Louisville.....	1.50

Total.....\$28.65

If itemized bills were filed in all cases we could analyze them and show many of these outrageous charges. He left Louisville for Paducah at 12.01 p.m. and was due to reach Paducah at 6:40 p.m. He left Paducah for Louisville the next day at 11:25 p.m. Rooms with a bath can be secured at the Palmer House for \$2.00 per day. The utmost charge, therefore, for a room should be \$4.00. He could eat but four meals there, and these cost \$9.80, or an average of two dollars and forty-five cents each.

His account for October, 1914, shows he paid to the Louisville Taxicab Company \$15.00, and in the same month \$30.00 to the Poland Taxicab Company for ten hours. He paid that month to the Seelbach Hotel \$6.10. His total expenses for the month amounted to \$37.29. In July, 1915, he bought and paid out of the School Fund 475.00 worth of postage stamps.

Hotel Bills Outside of the State

We find him charging 6.00 for one day at the Hermitage Hotel in Nashville, Tennessee, and in January, 1915, we find him paying \$35.50 to the Sinton Hotel in Cincinnati, which was paid under Voucher No. 41. If he hoped that the schools of Nashville and Cincinnati improved after his inspection.

Record Books in School Department

Under Voucher No. 40 he paid 2,400 for 12,000 "Record Books—Teachers and Sub-district Trustees," or 20 cents each, while the same books were printed under Prof. Crabbe for 7 1-2 cents each.

Personal Calendars

He had a lot of calendars made with the picture of his son engraved thereon. The State paid 500.00 for these on January 8, 1915. He was forced to refund this money July 20, 1915, just before the primary.

Hamlett and Gilbert Charge for Life Certificates—No Law to Warrant It—The Treasury Appears to Be No Better Off

The Legislature passed a law in 1912 authorizing the State Superintendent to issue life certificates to teachers who have twenty years of successful experience in teaching. There was no provision for a fee, and none could be legally charged. No money could be turned into the Treasury because the Treasurer has no authority to receive money where there is no provision of law for collecting, and none was paid into the Treasury on this account.

In some instances no fee was charged. In other cases a fee of 5.00 was demanded and paid. We have a large list of those who paid. We have also the cancelled checks in a number of instances with Mr. Hamlett's endorsement thereon.
